

Chisago Lakes Swim Pool

Youth Progressive Swimming Lessons Class offerings

Summer
2021

Because of executive orders, instructor availability, and pool/class capacity, swim lessons are operating at a lower volume with smaller classes. In June, only youth level classes are offered. If executive orders are lifted in July & additional instructors can be hired, preschool classes will be added to the schedule.

General program information summer 2021

Our aquatic facility includes a 25 meter wide by 25 yard long eight lane main pool. The water depth ranges from 3'6" to 12'. The air temperature is 86° - 87° and water temperature ranges from 84° - 85°. The main pool includes an attached diving well of 12' depth with a one meter springboard.

Masks are required to enter the high school and swimming pool area.

One parent spectator will be allowed to stay in the pool area with youth level 1 and youth level 2 classes. Youth level 3, 4, 5, & 6 are drop off only.

Students should come dressed to swim. Limited locker room space is available for changing after the class if needed.

All of our lessons are age and skill ability grouped. Age as of the first class meeting and swimming ability determines class placement. All registration must be done on line.

To maintain students' safety and to establish a positive learning environment, we want students grouped in classes most appropriate to their swimming ability. Before a registration is processed, the on-line registration software checks the skill level of any previous participants and those pre requisites need to be completed.

Swim lesson fees

All group lessons:

District early bird fee of \$55

| Non district & late registration fee of \$65

Choosing class levels

Never had formal swimming lessons:

Six or older register for a youth level 1 class.

In our program the past year:

If you've been in our lesson program the past year, the progress report at the end of a session indicates which class level is most appropriate. We also keep records of student levels. Students who have been in our program the past year must register for the proper level. The on-line software keeps track of lesson skills and skill level pre requisites must be met.

New to our program or haven't been in our program for more than a year: Three ways to determine class level.

1. Refer to the skill descriptions and choose the class level most closely fitting your child's age and ability. Skills listed are skill outcomes for that level.
2. Pay a \$12.50 skill evaluation fee and an evaluation will be scheduled at your convenience.
3. If you have been in another lesson program, contact the aquatic manager for more information on 'crossover' to our lessons program

Summer 2021 classes are 40 minutes long and meet Mondays, Tuesday, & Thursdays during the two week session

**Private lessons are available for all levels and all ages.
\$25 per 30 minute lesson or
five lessons for \$100**

Registration information

On Line:

[click here for the on line registration link](#)

active May 17 at 9AM for district residents

- Registrations must be on line. There is a high demand for lessons and limited instructors and space. We accept district #2144 registrations prior to accepting any out of district students. Registrations will be taken until a class is full. The information line & web site are updated regularly.
- Registrations must include payment to be complete. A registration will not be processed if it is missing the class fee. Credit cards are accepted on-line.
- Confirmation of class placement will be emailed. **If you do not receive a final confirmation email approximately 1 week prior to the start of a session, your registration has not been received or the class may have been cancelled**
- New students pretested the first class that exceed or do not meet the class standards may be moved. Only a limited number of adjustments can be made the first lesson. The lesson supervisor has final class placement decisions. If no space is available, students will need to wait for another session to participate and the full fee will be refunded.

Lesson fee refund policy (must be in writing - email accepted)

- Any refund request **made in writing** five business days prior to the start of the first lesson will be refunded the lesson fee minus a \$8 processing fee. Any refund request **made in writing** less than five business days prior to the start of the first lesson and the end of the second day of classes will be refunded 1/2 the lesson fee. No refunds will be issued after the end of the second lesson.

Lesson change policy (must be in writing)

- Any request for a time, session, or class change is treated similar to a refund. Lesson change requests must be **made in writing** five business days prior to the start of the first lesson. If space is available, the change will be made and the \$8 processing fee will be charged. Any lesson change request **made in writing** less than five business days prior to the start of the first lesson and the end of the second day of classes 1/2 of the lesson fee will be charged and the change made if space is available. When you register for a swim class, you are reserving a spot and taking away from another. We have limited space and want to accommodate as many as we can.

Specific registration information

Registration for those in the boundaries of the Chisago Lakes school district or open enrolled in our school district

• **Group lesson fees are \$55 for 'early bird' district residents registrations. Fee increases for registrations taken after a specific date or anyone not a resident in the Chisago Lakes school district and are listed for each session of lessons.**

- **District On line registration** for any summer session begins May 17, 2021 at 9am.

- **Initially register for your first summer session.** Register on-line for your child's first set of summer lessons. On the last day of that initial session of lessons, registration opens for any subsequent summer session. Take your child's Progress Report to the registration window and you may register for any other summer session. 'Late' fees for **continuing session** registrations will be waved. This is the most cost effective method of registration for swim lessons.
- **Register for your next summer session the last day of your initial session. ('Continuing session' registration)** On the last day of that initial session of lessons, registration opens for any subsequent summer session. Take your child's Progress Report to the registration window and you may register for any other summer session. 'Late' fees for continuing registrations will be waved. This is the most cost effective method of registration for swim lessons.
- **If a parent chooses not to use the 'continuing session' registration.** (Does not register immediately after the last lesson), you may register on line at a later date, but 'late fees' will apply.

Registration for out of district participants

- **Group lesson fees are \$65 for non district residents**

- **On line registration dates are listed for each summer session.**

- **Initially register for one summer session.** Initial registrations are accepted only during the dates listed for out of district participants. But once registered for your initial session, you may follow the same 'continuing session' registration procedure as district residents and pay the lower fee.

Session 1: *June 21-July 1*

Mon., Tues. & Thur. classes each week

district resident registration

on line start: *Monday, May 17 9AM*

Early bird deadline date: May 31
Class fees increase after that date.

out/district registration

on line start:
Friday, June 4 9AM

9:40-10:20AM classes
